

Arlington:

Car-Sharing vs. Private Vehicle Ownership Costs (household basis)

This analysis utilizes **Arlington and Virginia specific data** to estimate:

Household cost of owing a vehicle or using a car-share service

- on a per mile basis
- over a five year period
- at 1,500, 3,000 and 8,000 vehicle miles traveled (VMT) annually

ARLINGTON VIRGINIA

Analysis Parameters

Private Vehicle Ownership

- 1. Purchased New Honda Civic Sedan LX 2017 (with loan)
- 2. Purchased Used Honda Civic Sedan LX 2012 (with loan)
- 3. Purchased Used Honda Civic Sedan LX 2003 (no loan)
- 4. Keep car after 5 years Honda Civic Sedan LX 2003 (no loan)

Note: Parking related costs, such as RPP decals, metered, and reserved parking are <u>not included</u> in the private car-ownership calculation.

ARLINGTON VIRGINIA

Analysis Parameters

Free-Floating Car-Share Service

- 1. car2go Smart for two (reduced rate)
- 2. car2go Smart for two (normal rate)
- 3. car2go Mercedes Benz CLA/GLA

Note: Parking costs are included in the price per mile.

Reserved-Space Car-Share Program

- 1. ZipCar reserved-space carshare service (round-trip)
- 2. ZipCar reserved-space carshare service (one-way)

Note: Parking in car-share spaces is included in the price per mile; additional meter parking costs may accrue.

Car Ownership versus Car-Share over 5 years at 1,500 VMT annually (29 miles a week)

ZipCar vs. car2go

Car Ownership versus Car-Share over 5 years at 3,000 VMT annually (58 miles a week)

Car Ownership versus Car-Share over 5 years at 8,000 VMT annually (154 miles a week)

Summary:

In Arlington County:

- Up to 1,500 VMT annually (29 miles a week) all car-share options are economically more sustainable on a household level than private car-ownership (minimum savings over 5 year period ~ \$3750).
- Over 8,000 VMT annually (154 miles a week) private car-ownership is in most cases economically more sustainable on a household level than car-share.
- Car-share services are best used either as a regular first-last mile connector or for infrequent trip taking.
- Arlington families/residents owning more than one vehicle or individuals considering buying their first vehicle are most likely to realize considerable savings through using car-share instead.
